Portfolio: https://jasonsmacias.github.io/

Web development professional, coding boot camp certificate holder, and former librarian with an MLS, currently seeking a full-time web development position. Experienced in full-stack web development with good writing skills, good communication skills, and proficiency in Spanish.

TECHNICAL SKILLS
Node.Js, Express, JavaScript, jQuery, React.js, Git, Github, MongoDB, MySQL, Mongoose, Sequelize, HTML, CSS, Bootstrap, Bulma, JSON, Bash, Turf.js.

APPLICATIONS BUILT
Abstract Strategy Gamers Club | https://morning-ravine-10944.herokuapp.com/
- A single page web application whose primary function is to allow authenticated users to find others near them with similar gaming interests.
- Sole developer.
- Express back end using MySQL database and Sequelize ORM, with React front end using react router and geocoding libraries.
- https://github.com/JasonSMacias/2ndASGC

CNJ Sci-Fi/Fantasy BMC | http://bit.ly/CNJSFFBMC
- A web site for a local book club that offers professional book reviews and book previews from various public APIs, all of which are dynamically generated based on the state of the group's page on Meetup.com.
- A JavaScript, jQuery, and Bootstrap front end with Firebase functionality.
- https://github.com/JasonSMacias/2ndASGC

RECENT WORK EXPERIENCE
8/05 – 10/18 Spanish Language Cataloging librarian
                    Baker & Taylor, Bridgewater, NJ
- Created catalog records for Spanish-language materials according to AACR2 and RDA standards in Marc 21 format, with enhanced elements.
- Helped create and update detailed technical policy memos outlining standard department and company practices for cataloging specific types of materials.
